

Jay Shree Tea & Industries Ltd.

Singbulli

“ The garden is very particular in ecological up-gradation and maintaining bio-diversity since many years. Management have taken various steps for soil conservation and environmental protection. We have been planting different type of annual grasses, leguminous crop, short height shrubs and tall trees in fallow land, all along with boundaries of the sections and in vacant patches. The garden is doing massive infilling and development work. We have huge programme of vegetative composting & vermicompost plants. ”

Short story of our garden
